FOR IMMEDIATE RELEASE, OCTOBER 10, 2018

NEWS RELEASE

Water Tank Maintenance Project Underway

Durango, CO: As part of planned infrastructure improvements, the City of Durango is repainting the water tank near Miller Middle School. In addition to fresh paint, upgraded controls, security and safety appurtenances will also be installed as part of this project.

The repainting process involves two coating materials. Though the first material is a neutral tan color, the topcoat will be a green color selected to help the tank blend in with its surroundings. The neutral tan color, visible presently, will be covered with green paint prior to project completion.

Construction is anticipated to be completed in December, weather permitting.

We appreciate your cooperation during this construction project. If you have questions or concerns about this water tank project, please contact Jennifer Holland, Utilities Project Manager, at 970-764-5698 or by e-mail at: jennifer.holland@durangogov.org.
