## On-Site Excavation and Dirt Hauling Has Started for the Downtown Durango Hotel Project

**Durango, CO:** Now that the East 2nd Avenue and College Drive signal is completed, the City has issued an On-Site Excavation Permit that allows the development team to start hauling dirt from the Downtown Durango Hotel site (E 2nd Avenue between E 4th and E 5th Streets).

The full trucks will leave the site on East 2nd Avenue and go down to the new signal at East 2nd Avenue and College Drive. They will turn left onto College Drive and head west towards Camino del Rio. Once at the Highway, they will turn left and head south on the Highway.

Empty trucks will utilize 8th Avenue to College Drive and will turn left from College Drive onto East 2nd Avenue to access the site.

Depending upon the weather, the hauling will take a few months. Travelers are encouraged to utilize additional caution in this area of the community and along College Drive, specifically at the intersections of 2nd Ave and 8th Ave.

For more information on the Downtown Durango Hotel Project, visit [www.durangogov.org/devupdates](http://www.durangogov.org/devupdates).
