

## Telling the Story Volunteer Opportunities

**Telling the story of Parks and Recreation**, requires *your* help. Ways in which to assist are:

- Photographs! A photograph can tell such a beautiful story and enrich our lives. Parks and Recreation can always use photographs of people using our facilities, or participating in our programs and events. Use your photography skills and show us what you see.
- Facilitate user surveys to give the Parks and Recreation Department feedback and insights.
- Assist in preparing and distributing outreach materials to educate and/or connect with the community.
