

# ONSITE GRADING AND EXCAVATION PERMIT

Department of Public Works | Engineering Division | 970 375 4810 | engineering@durangogov.org

**\*\*A COPY OF THIS PERMIT SHALL BE POSTED AT THE JOBSITE AND/OR MADE AVAILABLE UPON REQUEST\*\***

## PURPOSE / PERMIT REQUIRED

Onsite Excavation & Grading Permits are required for any excavation on properties within the City of Durango which exceed 10-Cubic Yards, for significant over-lot grading projects and for projects undertaking the installation of subdivision utility or infrastructure improvements.

When the grading and excavation is done in conjunction with a building permit, these permits are reviewed simultaneously. When grading and excavation is to be done separate from a building permit application this application and associated materials are reviewed on their own.
